Weekly Detailed Course Contents

Week	Topics	Study Materials	Materials
1	verb to be, subject pronouns, possessive adjectives, possessive 's		
2	personal information, introducing yourself, the family words		
3	greetings in everyday situations, expressions for short conversations in everyday situations		
4	The Simple Present Tense		
5	Adverbs of frequency , Object Pronouns		
6	Noun Plurals, Telling the time		
7	have got / has got		
8	Linking words (and, so, but, because)		
9	There is / are , prepositions (in,on,under, next to)		
10	Adjectives of quantity (some, any, alot of, lots of, many, much)		
11	Demonstrative Adjectives + PronounsAdjectives for good & bad, adverb+ adjective		
12	NumberS & Prices		
13	Can / Can't		
14	was/were/could , The Simple Past Tense		

Course Learning Outcomes

No	Learning Outcomes
C01	To understand and use basic grammatical structures in English
C02	Recognizing and using social expressions.
C03	Understanding that you hear in the target language.
C04	Ask questions and answer related to fundamental issues.

Program Learning Outcomes

No	Learning Outcome
P01	He / she will have knowledge about technical knowledge, methods and tools that form the basis of interior design.
P06	Volumes of spaces, furniture and production process, lighting, colors, combinations with colors, ability to place reinforcement elements in all kinds of volumes, product design considering ergonomic
P17	Knows Atatürk's Principles and Revolutions, knows our history before and after the Republic.
P16	It aims to train students at the associate's degree level equipped with appropriate professional knowledge, and to train designers for businesses that currently lack qualified staff, both by the depart
P15	Will be able to follow information about the field of interior design and communicate with colleagues using a foreign language.
P14	Will be able to think creatively and innovatively, and apply the information learned in environments other than conventional practices with an innovative way of thinking.
P05	Knows the basic principles and methods of design. Makes the surveys of building and building elements. It designs the plan of the work to be done in line with the wishes and needs of the custome
P08	Will be able to use computer programs, information, communication technologies and office equipment at the level required by the field of interior design. Wins The ability to design with the traditi
P12	Will be able to examine market conditions, recognize revenue management practices and formulate strategies accordingly.
P10	Will assimilate the necessity of complying with the values of business ethics, have social, scientific and ethical values at the stages of collecting, interpreting, announcing and applying data related b
P09	Uses professional tools and techniques. It minimizes occupational accidents by using work safety equipment, knows occupational safety rules and acts in accordance with work rules and work safet
P07	Produced related to interior space; building elements, space fittings, all kinds of textiles, furniture, wood and wood products, plastic, metal, glass, PVC, etc. recognizes composite materials. Follows
P13	Have knowledge about the legislation, basic values and principles in the field of interior design.
P03	It will adopt a lifelong learning approach, and will work to renew and continuously improve its knowledge. It produces solutions with technological developments for interior spaces according to the
P02	Using and interpreting the technical and methodological knowledge acquired in the field of interior design in the field of application; will be able to express their thoughts and solutions to problems.
P11	Will be able to take responsibility individually and as a team member, be open-minded, open to criticism, constructive and self-confident, and work effectively and efficiently. Solves the problems ar
P04	Interior design technicians must have the ability to draw with an aesthetic point of view, to use eyes and hands in coordination, to perceive and analyze shapes in detail. It can make technical draw

Weekly Detailed Course Contents

Week	Topics	Study Materials	Materials
1	Introduction of Course Content and Resources		
2	Classification of materials, physical properties of materials		
3	Organic building materials (natural stone materials, natural stones used in decoration)		
4	Wooden materials; commercial wood materials, solid panels		
5	Surface coating materials, wood and plastic coatings and areas of use (PVC)		
6	Some wood-based composite materials (chipboard, fiberboard) and usage areas		
7	Some wood-based composite materials (chipboard, fiberboard) and their usage areas		
8	Some wood-based coated composite materials (coated particleboard, coated fiberboard and etc.)		
9	Some wood-based coated composite materials (High-Gloss panel, Plywood, etc.)		
10	Wood-based plastic composite materials (werezalite, compact material, etc.)		
11	Some wood-based composite materials (OSB, plywood, etc.) and usage areas		
12	Technological materials: laminated solid wood materials (PSL, LVL, LSL, GLULAM, OSL) advantages and usage areas		
13	Ready-made wooden lattice panels, wooden honeycomb composite panels, Honeycomb panels and usage areas		
14	Thermowood materials and areas of use (materials used in interior and exterior facades, materials used in high temperatur		

Course Learning Outcomes

No	Learning Outcomes
C01	Learns the definition, physical properties and classification of the material.
C02	Learns the technological properties of wood material.
C03	Learns wood-based composite materials and their usage areas.
C04	Learns wood-based plastic composite materials and their usage areas.
C05	Learns the wooden technological materials used in the field of construction and their usage areas.
C06	Learns the materials and usage areas used in wet areas, exterior cladding and outdoors.

Program Learning Outcomes

No	Learning Outcome

4	Understanding of two-dimensional and three-dimensional shapes, three dimensional appearance on the extraction of a sha		
5	Understanding of two-dimensional and three-dimensional shapes, three dimensional appearance on the extraction of a sha		
6	The concept of measurement and scale, translated into different scales, measuring methods and an application		
7	Three appearances extraction and measurement applications		
8	Drawing perspective picture from clear picture		
9	Scales and dimensioning methods		
10	Drawings that look the same		
11	Section types and sectioning methods		
12	Parallel perspective; oblique perspective, axonometric perspective		
13	Cavalier perspective, military perspective		
14	Isometric perspective, isometric and trimetric perspective		

Course Learning Outcomes

No	Learning Outcomes
C01	Learns the tools and equipment used in technical drawing.
C02	It is learns to draw basic geometric shapes.
C03	It is learns to draw appearances.
C04	Learn to take sections.
C05	Measurements of cross sections and details

Program Learning Outcomes

No	Learning Outcome
P01	He / she will have knowledge about technical knowledge, methods and tools that form the basis of interior design.
P06	Volumes of spaces, furniture and production process, lighting, colors, combinations with colors, ability to place reinforcement elements in all kinds of volumes, product design considering ergonomic
P17	Knows Atatürk's Principles and Revolutions, knows our history before and after the Republic.
P16	It aims to train students at the associate's degree level equipped with appropriate professional knowledge, and to train designers for businesses that currently lack qualified staff, both by the depart
P15	Will be able to follow information about the field of interior design and communicate with colleagues using a foreign language.
P14	Will be able to think creatively and innovatively, and apply the information learned in environments other than conventional practices with an innovative way of thinking.
P05	Knows the basic principles and methods of design. Makes the surveys of building and building elements. It designs the plan of the work to be done in line with the wishes and needs of the custome
P08	Will be able to use computer programs, information, communication technologies and office equipment at the level required by the field of interior design. Wins The ability to design with the traditi
P12	Will be able to examine market conditions, recognize revenue management practices and formulate strategies accordingly.
P10	Will assimilate the necessity of complying with the values of business ethics, have social, scientific and ethical values at the stages of collecting, interpreting, announcing and applying data related t
P09	Uses professional tools and techniques. It minimizes occupational accidents by using work safety equipment, knows occupational safety rules and acts in accordance with work rules and work safet
P07	Produced related to interior space; building elements, space fittings, all kinds of textiles, furniture, wood and wood products, plastic, metal, glass, PVC, etc. recognizes composite materials. Follows
P13	Have knowledge about the legislation, basic values and principles in the field of interior design.
P03	It will adopt a lifelong learning approach, and will work to renew and continuously improve its knowledge. It produces solutions with technological developments for interior spaces according to the
P02	Using and interpreting the technical and methodological knowledge acquired in the field of interior design in the field of application; will be able to express their thoughts and solutions to problems.
P11	Will be able to take responsibility individually and as a team member, be open-minded, open to criticism, constructive and self-confident, and work effectively and efficiently. Solves the problems ar
P04	Interior design technicians must have the ability to draw with an aesthetic point of view, to use eyes and hands in coordination, to perceive and analyze shapes in detail. It can make technical draw

Department / Program:

İç Mekan Tasarımı

Type of Course Unit:

Required

Objectives of the Course:

It is aimed to teach information about door, window, wall, floor and ceiling covering, insulation and lighting of the space in the space.

Teaching Methods and Techniques:

Door, door types, materials used in the door, elements that make up the door, Window, Window types, the materials used in the window, the elements that make up the window.

Wall cladding and its types. Flooring and its types. Ceiling coating and its types, suspended ceilings. Partitions and separators, decorative separators. Radiators and concealment of radiators. Indoor insulation. Light and lighting in the interior

12	Isıtıcı elaman (radyatör) ve örtüleri		
13	İç mekânda ses ve yalıtım		
14	İç mekânda ışık ve aydınlatma		

Course Learning Outcomes

No	Learning Outcomes
C01	Kapı elamanlarını, Kapı çeşitleri, kapı ölçülerini öğrenir
C02	pencere elamanlarını, pencere çeşitlerini, pencere ölçülerini öğrenir
C03	Zemin, duvar ve tavanda döşeme türlerini öğrenir
C04	Mekânda ses ve aydınlatmayı öğrenir

Program Learning Outcomes

No	Learning Outcome
P01	He / she will have knowledge about technical knowledge, methods and tools that form the basis of interior design.
P06	Volumes of spaces, furniture and production process, lighting, colors, combinations with colors, ability to place reinforcement elements in all kinds of volumes, product design considering ergonomic
P17	Knows Atatürk's Principles and Revolutions, knows our history before and after the Republic.
P16	It aims to train students at the associate's degree level equipped with appropriate professional knowledge, and to train designers for businesses that currently lack qualified staff, both by the depart
P15	Will be able to follow information about the field of interior design and communicate with colleagues using a foreign language.
P14	Will be able to think creatively and innovatively, and apply the information learned in environments other than conventional practices with an innovative way of thinking.
P05	Knows the basic principles and methods of design. Makes the surveys of building and building elements. It designs the plan of the work to be done in line with the wishes and needs of the custome
P08	Will be able to use computer programs, information, communication technologies and office equipment at the level required by the field of interior design. Wins The ability to design with the traditi
P12	Will be able to examine market conditions, recognize revenue management practices and formulate strategies accordingly.
P10	Will assimilate the necessity of complying with the values of business ethics, have social, scientific and ethical values at the stages of collecting, interpreting, announcing and applying data related t
P09	Uses professional tools and techniques. It minimizes occupational accidents by using work safety equipment, knows occupational safety rules and acts in accordance with work rules and work safet
P07	Produced related to interior space; building elements, space fittings, all kinds of textiles, furniture, wood and wood products, plastic, metal, glass, PVC, etc. recognizes composite materials. Follows
P13	Have knowledge about the legislation, basic values and principles in the field of interior design.
P03	It will adopt a lifelong learning approach, and will work to renew and continuously improve its knowledge. It produces solutions with technological developments for interior spaces according to the
P02	Using and interpreting the technical and methodological knowledge acquired in the field of interior design in the field of application; will be able to express their thoughts and solutions to problems
P11	Will be able to take responsibility individually and as a team member, be open-minded, open to criticism, constructive and self-confident, and work effectively and efficiently. Solves the problems ar
P04	Interior design technicians must have the ability to draw with an aesthetic point of view, to use eyes and hands in coordination, to perceive and analyze shapes in detail. It can make technical draw

İMT2002		WOOD ENGRAVING TECHNIQUES			
Semester	Course Unit Code	Course Unit Title	L+P	Credit	Number of ECTS Credits
4	İMT2002	WOOD ENGRAVING TECHNIQUES	3	3	3

Mode of Delivery:

Face to Face

Language of Instruction:

Turkish

Level of Course Unit:

Associate

Work Placement(s):

No

Department / Program:

İç Mekan Tasarımı

Type of Course Unit:

Required

Objectives of the Course:

In this course, students will know and apply the methods of turning wood parts.

Teaching Methods and Techniques:

Turning types and methods

Prerequisites and co-requisites:**Course Coordinator:****Name of Lecturers:****Assistants:****Recommended or Required Reading****Resources****Course Category**

Mathematics and Basic Sciences :	Education :
Engineering :	Science :
Engineering Design :	Health :
Social Sciences :	Field : 100

Weekly Detailed Course Contents

Week	Topics	Study Materials	Materials
1	Turning Template		
2	Turning Template		
3	Turning machines		
4	Cutters		
5	Turning methods		
6	Turning methods		
7	Taper Turning Parts		
8	Midterm Exam		
9	Linear Turning		
10	Gradually Turning Parts		
11	Turning Twist		
12	Turning Twist		
13	Twisting machines		
14	Turning the concave		

Course Learning Outcomes

No	Learning Outcomes
C01	Turning to prepare requirement.
C02	Longitudinal and Do it to the lathe.
