TK-2012	SAMPLE FABRIC WEAVING II				
Semester	Code	Name	T+P	Credit	ECTS
4	TK-2012	SAMPLE FABRIC WEAVING II	3	2	3
Education Type	Language	Course Level	Course Internship Status	Type of Course	
Formal Education	Turkish	Associate	No	Required	
Department/Program	Precondition		Course Coordinator	Instructor	Course Assistants
Textile Technology			None	Instructor Ali ÖZSEVİNÇ ali.ozsevinc@gop.edu.tr	None

The aim of lesson :

Be able to gain skills in indicating basic fabric types and showing them on paper by explaining fabric production. Also this course aims to give basic weaving principals and weaving process to our students.

Course Contents :

To classify weaving preparation processes (winding, warping, sizing etc.)

Textile Technology			None	Instructor HAKAN ÖZVAR	None
The aim of lesson :					
Finishing machines, structure, and basic parts of the common characteristics of learning. Extraction method, the machines used to understand the characteristics and working patterns. To understand the properties and work machines used for impregnation method forms. Pre-drying and drying machines and finishing machines to understand features and working principles will result in errors, to prevent.					
Course Contents :					
HT coil yarn dyeing machine, the working principle, structure and properties, the working principle of hank yarn dyeing machine, the structure and properties, Haspel machine working principle, structure and properties, Jigger machine working principle, structure and properties, Overflow machine working principle, structure and properties, Jet machine working principle, structure and properties, Levent HT dyeing machine, the operating principle, structure and properties, Part dyeing machine, the operating principle, structure and properties, Part dyeing machine, the operating principle, structure and properties, impregnation method, the advantages and disadvantages, and fulard Fulard machine constructions, calculations related to Fulard, Pre-drying of water used kalandırı, centrifuges and vacuum the front, working principles dryers, drying, and the current principles of the opposite, with the hot air drying gerçefli dryer, air-cushioned, and hot-flue dryer working principles, the principle of drying and Contact barabanların work, high-frequency dryers working principle, working principle of IR dryers, semi-batch and continuous dyeing machines, methods and grasp.

TK-1014	Career Planning				
Semester	Code	Name	T+P	Credit	ECTS
2	TK-1014	Career Planning	1	1	2
Education Type	Language	Course Level	Course Internship Status	Type of Course	
Formal Education	Turkish	Associate	No	Required	
Department/Program		Precondition	Course Coordinator	Instructor	Course Assistants
Textile Technology			None	Asist Prof.Dr. Ediz GÜRİPEK	None
The aim of lesson :					
This course aims to identify the problems that tourism students might encounter before entering the working life and show them the way to overcome these problems.					
Course Contents :					
In the concept of the course, there are studies related to mainly career management, planning and development and applications related to determination of career problems in tourism and their solutions.

TK-2004	FABRIC QUALITY CONTROL				
Semester	Code	Name	T+P	Credit	ECTS
4	TK-2004	FABRIC QUALITY CONTROL	2	2	2
Education Type	Language	Course Level	Course Internship Status	Type of Course	
Formal Education	Turkish	Associate	No	Required	
Department/Program		Precondition	Course Coordinator	Instructor	Course Assistants
Textile Technology			None	Asist Prof.Dr. ALİ ÖZSEVİNÇ	None
The aim of lesson :					
To recognize fabric failure,to understand the causes of error and to learn error control methods					
Course Contents :					
Fabric quality control and error maps, Fabric quality control and error maps, Fabric quality control and error maps, Fabric quality control and error maps, Fabric quality control and error maps, Fabric quality control and error maps, Fabric quality control and error maps, Error level evaluation

TK-2006	TEXTILE PRODUCTION PLANNING				
Semester	Code	Name	T+P	Credit	ECTS
4	TK-2006	TEXTILE PRODUCTION PLANNING	4	4	4

Education Type	Language	Course Level	Course Internship Status	Type of Course
Formal Education	Turkish	Associate	No	Required

Department/Program	Precondition	Course Coordinator	Instructor	Course Assistants
Textile Technology		None	Instructor SABRİ SEVER	None

The aim of lesson :

Business and production management. Production plans and programs. Types of production plans. Production planning techniques. Production scheduling. Mathematical models. Cost models. Production planning by linear programming method. Production planning with assignment. Production planning with assignment. Waiting line problems. Textile operations (such as yarn weaving, apparel, etc.). Production planning and application studies in textile and apparel enterprises. Work and time study studies and calculation of idle time.

Course Contents :

business and production management, production plans and programs, production plan types by students. A good textile manager should know; Production planning techniques, production scheduling, mathematical models, cost models, production planning with linear programming method. Production planning with assignment, production planning with assignment. Waiting line problems. Textile operations (such as yarn weaving, apparel, etc.). Production planning and application studies in textile and apparel enterprises. Work and time study studies and elimination of idle time. Lean management and maximum value appreciation.
